Financial Highlights

Financial Highlights

FY 2024

NMDC Energy reported robust financial results, reflecting its sustained strong operational performance and strategic expansion into new projects, both locally and internationally.

This demonstrates the company's ability to consistently enhance shareholder value and maintain its leadership role in driving key EPC projects with seamless operational excellence.

AED 50.4 bn

As of 31 December 2024, the secured backlog stood at approximately **AED 50.4 billion**, reflecting a robust level of secured revenue.

Free Cash Flow and Working Capital

2

Free Cash Flow and Working Capital

Free Cash Flow

Free cash flow in 4Q 2024 was driven by higher cash generated from operations during the quarter. In FY 2024 free cash flows have increased by 41% given the significant increase in business operations, lower capex and favorable working capital management.

AED MILLION

	4Q 24	4Q 23	FY 24	FY 23
Cash from Operations	1,739	1,403	2,836	2,224
Capital Expenditures	(305)	(142)	(610)	(645)
Free Cash Flow	1,434	1,261	2,226	1,579

Working Capital

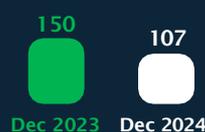

Net working capital continued to remain negative as at 31 December 2024 largely driven by increased focus on collections which led to a reduction in debtor days and advances from customers. On an overall basis the business continues to operate with a healthy position from a working capital cycle perspective despite significant growth in operations.

AED MILLION

	31 Dec 2024	31 Dec 2023
Inventories	250	236
Trade & Receivables	5,032	3,175
Contract Assets	3,106	2,209
Other Current Assets	12	1,041
Trade & Other Payables	(8,745)	(6,028)
Contract Liabilities	(937)	(141)
Other Current Liabilities	(371)	(851)

Key Developments

Taiwan Pipeline Project

In January 2025, NMDC Energy was awarded a massive project from Taiwan Power Company (Taipower), valued at USD 1.14 billion. The EPC contract for Taiwan subsea gas pipeline project, is a strategic contract for pipeline installation, shore approach works and dredging for the Tung-Hsiao Power Plant 2nd stage renewal project.

NMDC Energy will design, construct and install 111 km of linear pipeline at depths ranging from 10 metres to 55 metres. This Award reinforces NMDC Energy's strategy to expand geographically into high-potential markets and reiterates its support and contribution to renewable energy initiatives.

KSA Yard Inauguration

NMDC Energy has inaugurated its state-of-the-art fabrication yard in Ras Al Khair Special Economic Zone in Saudi Arabia, with investment value of AED 200 million. The 400,000 sqm state-of-the-art yard will provide offshore facilities fabrication as well as onshore modularization.

This includes the construction of offshore facilities, structures, design and assembly of modular (prefabricated) units onshore, with annual production capacity of 40,000 tons.

Sustainability and Health, Safety & Environment

Sustainability

MSCI Rating

We are proud to announce that NMDC Group, the majority shareholder of NMDC Energy, achieved an MSCI AA ESG rating, (fully supported by NMDC Energy) which reflects the group's commitment to sustainability. As a leader in this field, The Group is striving for excellence and aims to attain an AAA rating.

A company leading its industry in managing the most significant ESG risks and opportunities.

Emission Inventory

We have updated our emissions inventory to enhance the accuracy of our emissions assessment. These insights enable us to focus on minimizing emissions in our operations (Scope 1 and 2) as well as those of our suppliers (Scope 3).

ESG Strategy

To further optimize our sustainability performance, we have developed a comprehensive strategy built on five pillars (two environmental, two social, and one governance). This strategy encompasses a number of initiatives to enhance our overall performance.

Sustainability and Health, Safety & Environment

HSE

IPLOCA Award

NMDC Energy was the winner of the recent 2024 IPLOCA Environmental Award for Blue Carbon Initiative sponsored by Shell. NMDC Energy planted 20,001 mangrove seedlings which can capture 246 tons of CO2 annually.

On site solar panels

We are setting up a pilot to install temporary solar panels on our of-grid project sites. These panels provide a renewable energy source, reducing reliance on diesel generators and minimizing greenhouse gas emissions during project execution.

Electrification

As part of our commitment to sustainability and reducing our environmental impact, we have initiated the electrification of our construction yard. This transition from traditional fuel-based power sources to renewable electricity aligns with our ESG goals.
